

FRONT

BACK

This is the EXACT size and shape that your pagefinder will be. Please make sure the important components of your pagefinder design fit within the outline, including text and/or logos. Please note: any blank areas in your artwork will result in a white background as the pagefinder material is white.

This is the background area of your pagefinder. Although this part of the pagefinder will be cut off, extending your artwork over this ENTIRE area ensures that no unwanted slivers of white plastic show at the edges.
